WORK EXPERIENCE

Internship, AISG (Hosted by Vistec) 19/05/2024 – 01/08/2024
Bangkok, Thailand

- For Burmese related data and prompts I worked on:
- Data Annotation and cleaning
- Prompt Creation
- Quality Control and testing
- All the research and work go towards the progress of AISG's SEA language AI models like the SEALion.

EDUCATION

Bachelor's in computer engineering, 08/2026
KING MONGKUT UNIVERSITY OF TECHNOLOGY THONBURI Bangkok, Thailand

- Cumulative GPA: 2.74

PROJECTS

Fire Spelling Game 12/2025 – 12/2025

- Simple web-based typing game that helps players learn though the CEFR levels of English.
- Designed UI and level logic

Burmese Article Analyzer 11/2025 – 11/2025

- Created the frontend with JS, HTML, CSS and backend with Flask API and help train the predictive model by annotating /labelling text data and then using scikit-learn model to get final product.

Trend Vogue: E-commerce website 09/2024 – 09/2024

- Designed and implemented recommendations and similar clothing features using JavaScript.

KMUTT as an AI service (Senior Project) 01/2026 – 05/2026

- Depoyed an AI service platform as a website using OpenWebUI, Docker, LiteLLM that runs local and cloud models using a VM running on Linux Ubuntu.

QRDistance: An Image Processing Project
